The construction industry is rapidly being confronted by unprecedented changes—shortages of skilled workers, new technologies, and economic pressures caused by recent geopolitical events are all forcing stakeholders to adapt rapidly to the changing climate. Diversity and Inclusion in DRI: A Statement of Principle
DRI is the largest international membership organization of attorneys defending the interests of business and individuals in civil litigation.
Diversity is a core value at DRI. Indeed, diversity, which includes sexual orientation, is fundamental to the success of the organization, and we seek out and embrace the innumerable benefits and contributions that the perspectives, backgrounds, cultures, and life experiences a diverse membership provides.

Inclusiveness is the chief means to increase the diversity of DRI’s membership and leadership positions. DRI’s members and potential leaders are often also members and leaders of other defense organizations. Accordingly, DRI encourages all national, state, and local defense organizations to promote diversity and inclusion in their membership and leadership.
